To The Secretary to the Government of Madras

Law & Education Department.

Sir,

(R) As the sanction accorded in G.O.No. 221 Law (Edn) dated 11-2-25 to the continuance of the Hindustani teacher on Rs. 35-6 a month employed in the Government Higher Elementary Training School for Masters, Mangalore. expires on 31st March 1927, I have the honour to request that Government will be pleased to sanction the retention of the post for a further period of two years from 1st April 1927

2. There are now 14 Hindustani teachers under training in the school, of whom 7 are in the Junior classes, 1 in the Higher Elementary and 6 in the Lower Elementary clases) and these will complete their training only by the end of March 1928. Besides, the District Educational Office, South Kanara, reports that the Urdu speaking untrained teachers employed in the dist. district are unwilling to go to Madras for the necessary

2

training and that about half a dozen of them are likely to seek admission into the school in July 1927. He therefore considers that the retention of the Hindustani teacher for a further period of 2 years after 31st March 1927 is necessary and I support his recommendation.

3. Provision for the salary of the teacher has been inserted in the Budget Estimate for 1927-28.

I have the honour to be,

Through, Law (Education) Department. Madras

The President, District Board, South Kanara.

Sir,

I have the honour to state that my Taluk Board has required me to address Government for subsidy to pay for the medical inspection of pupils of the Elementary schools under the Board.

2. The medical inspection of pupils in the Secondary schools has been made obligatory by Government and the benefits derived therefrom by the public are (too manifest?) fold. My Board consider that such inspection of pupils in Elementary schools also is a desideratum. There are at present 109 Elementary schools - under this Board with about 7,800 pupils on the rolls. The -- finances of my Board do not permit of bearing any cost of this inspection. As the pupils attendinging these Elementary schoo are poor and as the parents are ignorant of the advantages to

Cir No. 2242 3.12.26

to be derived by the Medical Inspection no share of the cost of inspection can be expected from them. The Medical inspection fee for a pupil in the Secondary school is 12 annas of which one third viz., 4 annas is borne from Provincial Funds. In the case of Elementary schools also, if the Government should be pleased -- to sanction a similar sum of 4 annas per pupil without insisting on the condition of bearing the cost by the pupils and the management. I shall try to secure the services of licensed medical --- practitioners to do the work with the fee of 4 annas to be sanctioned by Government. I accordingly request that the Government may be pleased to sanction a subsidy of Rs 2000 for the purpose at present.

3. I beg enclose a copy of the Taluk Board's resolution in the matter.

C. 328 C - From the President, Taluk Board, Mangalore, Ref. in C.E No. 5/27 dt 6.1.27)

Subject — Medical inspection of pupils in schools under the control of the Taluk Board, Mangalore

---

The scheme of medical inspection now in force applies only to secondary schools and school departments of colleges. The question of extending the scheme to elementary schools was considered in 1920 and it was decided that it should be deferred — vide paragraph 2 of Gro No. 208 Home (Edn) dt 12.2.20 and the notes on pages 2-3 of the notes to the Gro. The President's request that a subsidy may be granted from provincial funds towards the ~~cost~~ medical inspection of the pupils in the elementary schools under the control of the Taluk Board, Mangalore, is inadmissible.

I agree that the draft order represents the present position and suggest its issue.

At the same time I do feel that it is desirable gradually to extend the scheme of medical inspection of pupils to elementary schools. If Government is in favour of such a view I should suggest that medical inspection be started first of all in elementary schools in areas which have applied compulsion. The object would be two-fold. It would restrict the cost. It would also be an inducement to local bodies to introduce compulsion. As regards cost I should insist upon the local body meeting one-half of the cost, while Government meet the other half of the cost.

Mis

The Government do not propose at present to extend the scheme of medical inspection of pupils to elementary schools.

They are, therefore, unable to comply with the request of the Taluk Board, Mangalore, that a subsidy may be granted from Provincial funds towards the cost of medical inspection of pupils in the elementary schools under its control.
